

Position: Construction Inspectors

North Rock Engineering Inc. is currently looking for a Construction Administrators and both Senior and Junior construction inspectors, to join our growing highly skilled engineering team.

The ideal candidates for these roles will work as a part of a multidiscipline team. As construction inspectors, you will be required to coordinate and administer construction administration duties and various inspection roles, for low to high valued construction assignments. You will be required to ensure that projects are proceeding within scope and budget, as well communicate regularly with other team members, Project Administrators, Project Manager, and clients.

For Construction Administrators, preferred candidates will have a minimum of 3 years of direct construction administration experience. Registration as RCCA with OACETT is an asset, but not a requirement.

For Senior Construction Inspectors, preferred candidates will have a minimum of 3 years of construction inspection experience. Registration as RCSI with OACETT is an asset, but not a requirement.

For Junior Construction Inspectors, preferred candidates will have graduated from a civil technology diploma program (or equivalent). Construction experience is an asset. Registration as RCJI with OACETT is an asset, but not a requirement.

Job Duties

- Ability to work with others on small and large complex construction projects.
- Assist in the preparation of contract documents and specifications.
- May be required to perform constructability review of work completed by others.
- May be required to perform QC checks on work completed by others.
- Coordinate with other CAs, as well as other junior and senior inspectors on larger scale projects.
- Administrators and inspectors will be expected work in the field when required.
- Perform other design/engineering duties as assigned by your supervisor.

Qualifications

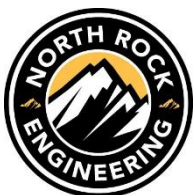

- Diploma or Degree with a Civil Engineering, Planning, or Environmental designation.
- Understanding and experience of civil construction concepts and methods.
- Strong organizational and oral communication skills.
- Ability to work as part of a larger team or independently on smaller assignments.
- Ability to work as part of a team and influence a positive work environment under all circumstances.
- Possession of a valid Class 'G' Drivers License.
- Ability / willingness to travel throughout northern Ontario, on multi-day projects.

Applications Instructions

Please send your resume and cover letter to kbriggs@nrock.ca by February 24, 2023. Selected candidates will be contacted for an interview.

Thank you for your interest in becoming a part of the North Rock family.

Kevin Briggs, P.Eng.
